

Unity Employment Network

**Connecting
WA employers
with jobseekers
from asylum
seeker, refugee
& new migrant
backgrounds**

- Are you looking for reliable, loyal, eager staff members?
- Have difficulty finding staff with the specific skills you need?
- Perhaps people who can bring different perspectives and ideas to your team?
- Do you need staff who can speak the same language as your customers?
- Want to build a diverse, entrepreneurial team brimming with life experience?

The Unity Employment Network can help you to connect to around 1,500 jobseekers from culturally and linguistically diverse backgrounds.

the
power of
humanity

An initiative of MercyCare, Australian Red Cross and the Coalition for Asylum Seekers, Refugees and Detainees (CARAD), the Unity Employment Network combines the specialised expertise of three respected community organisations in ensuring new migrants settle successfully in WA.

Our Jobseekers

Our jobseekers have full work rights and good English language competency, and can offer a wide variety of skills, experiences, and benefits to your organisation.

We ensure that they have relevant checks and licences in place, undertake training, apprenticeships and work experience, understand workplace expectations and are job ready.

Our Employer Partners

We work with our WA employer partners to:

- Find the right person for your role and organisation
- Complete necessary pre-employment training or skill development
- set up and run bespoke work experience or traineeship programs tailored to your needs
- And provide post-placement support to ensure a successful match

Please contact us if you want further information or to discuss your needs at UnityEmployment@mercycare.org.au

Connecting job seekers from asylum seeker and refugee backgrounds with WA employers
