

# Early Intervention Strategy

## Vision:

We are confident and competent leaders in early intervention, supporting children to feel a sense of belonging and to experience success

## Outcomes:

### Child will

Be at the heart of every decision.  
Receive safe, individual, connected and effective education and care.

Be included and celebrated, feel a sense of belonging and experience success.

Receive the individual support and early intervention they need to create equal opportunities for success.

### Families will

Be informed and empowered to make the best decisions for their child, while being supported by educators and external professionals.

### Educators will

Build capacity, confidence and competence.  
Feel supported and safe.

Collaborate with families and external professionals to provide safe, individual, connected and effective education and care.

### Systems & Processes will

Educate, support and guide educators and families to develop partnerships and pathways.

Identify and support early intervention.
